

## **620 CREDIT FOR LEARNING**

***[Note: Education districts statutorily are required to provide students with credit for approved post-secondary courses, as set forth in Section V.; and accelerated or advanced academic courses offered by a higher education institution or nonprofit public agency, as set forth in Section VII. Additionally, education districts are required by statute to identify whether the education district offers weighted grades and, if it does, identify the courses for which a student may earn a weighted grade (Section VIII). Optional provisions related to awarding credit to students transferring from out-of-state, private, or home schools and the issuance of student grades for purposes of awarding certain honors, as set forth in Section IV., are not required by statute. Therefore, the language contained in Section IV. is suggested language, and an education district may or may not include this section or may modify this section at its discretion.]***

### **I. PURPOSE**

This policy recognizes student achievement that occurs in postsecondary enrollment options and other advanced enrichment programs. This policy also recognizes student achievement that occurs in other schools, in alternative learning sites, and in out-of-school experiences such as community organizations, work-based learning, and other educational activities and opportunities. This policy addresses transfer of student credit from out-of-state, private, or home schools and online learning programs and to address how the education district will recognize student achievement obtained outside of the education district.

### **II. GENERAL STATEMENT OF POLICY**

The policy of the education district is to provide a process for awarding students credit toward graduation requirements for credits and grades students complete in other schools, postsecondary or higher education institutions, other learning environments, and online courses and programs.

### **III. DEFINITIONS**

- A. "Accredited school" means a school that is accredited by an accrediting agency, recognized according to Minnesota Statutes, section 123B.445 or recognized by the Commissioner of the Minnesota Department of Education (Commissioner).
- B. "Concurrent enrollment" means nonsectarian courses in which an eligible pupil under subdivision 5 or 5b enrolls to earn both secondary and postsecondary credits, are taught by a secondary teacher or a postsecondary faculty member, and are offered at a high school for which the district is eligible to receive concurrent enrollment program aid under Minnesota Statutes, section 124D.091.
- C. "Course" means a course or program.
- D. "Eligible institution" means a Minnesota public postsecondary institution, a private, nonprofit two-year trade and technical school granting associate degrees, an opportunities industrialization center accredited by an accreditor recognized by the United States Department of Education, or a private, residential, two-year or four-year, liberal arts, degree-granting college or university located in Minnesota. An eligible institution must not require a faith statement from a secondary student seeking to enroll in a postsecondary course under this section during the application process or base any part of the admission decision on a student's race, creed, ethnicity, disability,

gender, or sexual orientation or religious beliefs or affiliations.

- E. "Nonpublic school" is a private school or home school in which a child is provided instruction in compliance with the Minnesota compulsory attendance laws.
- F. "Weighted grade" is a letter or numerical grade that is assigned a numerical advantage when calculating the grade point average.

#### **IV. TRANSFER OF CREDIT FROM OTHER SCHOOLS**

##### **A. Transfer of Academic Requirements from Other Minnesota Public Secondary Schools**

- 1. The education district will accept and transfer secondary credits and grades awarded to a student from another Minnesota public secondary school upon presentation of a certified transcript from the transferring public secondary school evidencing the course taken and the grade and credit awarded.
- 2. Credits and grades awarded from another Minnesota public secondary school may be used to compute honor roll and/or class rank if a student has earned at least **[insert number]** credits from the education district.

##### **B. Transfer of Academic Requirements from Other Schools**

- 1. The education district will accept secondary credits and grades awarded to a student for courses successfully completed at a public school outside of Minnesota or an accredited nonpublic school upon presentation of a certified transcript from the transferring public school in another state or nonpublic school evidencing the course taken and the grade and credit awarded.
  - a. When a determination is made that the content of the course aligns directly with education district graduation requirements, the student will be awarded commensurate credits and grades.
  - b. Commensurate credits and grades awarded from an accredited nonpublic school or public school in another state may be used to compute honor roll and/or class rank if a student has earned at least **[insert number]** credits from the education district.
  - c. In the event the content of a course taken at an accredited nonpublic school or public school in another state does not fully align with the content of the education district's high school graduation requirements but is comparable to elective credits offered by the school district for graduation, the student may be provided elective credit applied toward graduation requirements. Credit that does not fully align with the education district's high school graduation requirements will not be used to compute honor roll and/or class rank.
  - d. If no comparable course is offered by the education district for which high school graduation credit would be provided, no credit will be provided to the student.
- 2. Students transferring from a non-accredited, nonpublic school shall receive credit from the education district upon presentation of a transcript or other documentation evidencing the course taken and grade and credit awarded.
  - a. Students will be required to provide copies of course descriptions, syllabi, or work samples for determination of appropriate credit. In addition, students also may be asked to provide interviews/conferences with the student and/or student's parent and/or former administrator or teacher; review of a record of the

student's entire curriculum at the nonpublic school; and review of the student's complete record of academic achievement.

- b. Where the education district determines that a course completed by a student at a non-accredited, nonpublic school is commensurate with education district graduation requirements, credit shall be awarded, but the grade shall be "P" (pass).
  - c. In the event the content of a course taken at an non-accredited, nonpublic school does not fully align with the content of the education district's high school graduation requirements but is comparable to elective credits offered by the education district for graduation, the student may be provided elective credit applied toward graduation requirements.
  - d. If no comparable course is offered by the education district for which local high school graduation credit would be provided, no credit will be provided to the student.
  - e. Credit and grades earned from a non-accredited nonpublic school shall not be used to compute honor roll and/or class rank.
- C. A student must provide the school with a copy of the student's grades in each course taken for secondary credit under this policy, including interim or non-final grades earned during the academic term.

#### **V. POSTSECONDARY ENROLLMENT CREDIT**

- A. A student who satisfactorily completes a postsecondary enrollment options course or program under Minnesota Statutes, section 124D.09 that has been approved as meeting the necessary requirements is not required to complete other requirements of the academic standards corresponding to that specific rigorous course of study.
- B. Secondary credits granted to a student through a postsecondary enrollment options course or program must be counted toward the graduation requirements and subject area requirements of the district.
  - 1. Course credit will be considered by the education district only upon presentation of a certified transcript from an eligible institution evidencing the course taken and the grade and credit awarded.
  - 2. Seven quarter or four semester postsecondary credits shall equal at least one full year of high school credit. Fewer postsecondary credits may be prorated.
  - 3. When a determination is made that the content of the postsecondary course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student's transcript as a course credit applied toward graduation requirements.
  - 4. In the event the content of the postsecondary course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the education district for graduation, the education district may provide elective credit and the grade will be recorded on the student's transcript as an elective course credit applied toward graduation requirements.
  - 5. If no comparable course is offered by the education district for which high school graduation credit would be provided, the education district will notify the Commissioner, who shall determine the number of credits that shall be granted to a student.

6. When secondary credit is granted for postsecondary credits taken by a student, the education district will record those credits on the student's transcript as credits earned at a postsecondary institution.
- C. A list of the courses or programs meeting the necessary requirements may be obtained from the education district.
- D. By the earlier of (1) three weeks prior to the date by which a student must register for district courses for the following school year, or (2) March 1 of each year, the education district must provide up-to-date information on the district's website and in materials that are distributed to parents and students about the program, including information about enrollment requirements and the ability to earn postsecondary credit to all pupils in grades 8, 9, 10, and 11. To assist the education district in planning, a pupil must inform the district by October 30 or May 30 of each year of the pupil's intent to enroll in postsecondary courses during the following academic term. A pupil is bound by notifying or not notifying the education district by October 30 or May 30.

**[NOTE: Because the 2024 Minnesota legislature amended the last two sentences, MSBA decided to add this language to this model policy.]**

- E. Postsecondary institutions must notify a pupil's school as soon as practicable if the pupil withdraws from the enrolled course. The institution must also notify the pupil's school as soon as practicable if the pupil has been absent from a course for ten consecutive days on which classes are held, based on the postsecondary institution's academic calendar, and the pupil is not receiving instruction in their home or hospital or other facility.

**[NOTE: The 2024 Minnesota legislature enacted this provision.]**

## **VI. CREDIT FOR EMPLOYMENT WITH HEALTH CARE PROVIDERS**

Consistent with the career and technical pathways program, a student in grade 11 or 12 who is employed by an institutional long-term care or licensed assisted living facility, a home and community-based services and supports provider, a hospital or health system clinic, or a child care center may earn up to two elective credits each year toward graduation under Minnesota Statutes, section 120B.024, subdivision 1, paragraph (a), clause (7), at the discretion of the enrolling education district. A student may earn one elective credit for every 350 hours worked, including hours worked during the summer. A student who is employed by an eligible employer must submit an application, in the form or manner required by the education district, for elective credit to the education district in order to receive elective credit. The education district must verify the hours worked with the employer before awarding elective credit.

## **VII. ADVANCED ACADEMIC CREDIT**

- A. The education district will grant academic credit to a student attending an accelerated or advanced academic course offered by a higher education institution or a nonprofit public agency, other than the education district.
- B. Course credit will be considered only upon official documentation from the higher education institution or nonprofit public agency that the student successfully completed the course, attended and passed an examination approved by the education district.
- C. When a determination is made that the content of the advanced academic course aligns directly with a required course for high school graduation, the commensurate credit and grade will be recorded on the student's transcript as a course credit applied

toward graduation requirements.

- D. In the event the content of the advanced academic course does not fully align with the content of a high school course required for graduation but is comparable to elective credits offered by the education district for graduation, the education district may provide elective credit and the grade will be recorded on the student's transcript as an elective course credit applied toward graduation requirements.
- E. If no comparable course is offered by the education district for which high school graduation credit would be provided, the education district will notify the Commissioner and request a determination of the number of credits that shall be granted to a student.

### **VIII. WEIGHTED GRADES**

***[Note: Education districts must identify in policy whether they offer courses with weighted grades. Therefore, education districts must include one of the following options in their policies. An education district board must adopt an identical policy regarding weighted grade point averages for credits earned via post secondary coursework as it gives to credits earned via concurrent enrollment coursework.]***

- A. The education district does not offer weighted grades.

### **IX. PROCESS FOR AWARDING CREDIT**

- A. The building principal will be responsible for carrying out the process to award credits and grades pursuant to this policy. The building principal will notify students in writing of the decision as to how credits and grades will be awarded.
- B. A student or the student's parent or guardian may seek reconsideration of the decision by the building principal as to credits and/or grades awarded upon request of a student or the student's parent or guardian if the request is made in writing to the executive director within five school days of the date of the building principal's decision. The request should set forth the credit and/or grade requested and the reason(s) why credit(s)/grade(s) should be provided as requested. Any pertinent documentation in support of the request should be submitted.
- C. The decision of the executive director as to the award of credits or grades shall be a final decision by the education district and shall not be appealable by the student or student's parent or guardian except as set forth in Section IX.D. below.
- D. If a student disputes the number of credits granted by the education district for a particular postsecondary enrollment course, or advanced academic credit course, the student may appeal the education district's decision to the Commissioner. The decision of the Commissioner shall be final.
- E. At any time during the process, the building principal or executive director may ask for course descriptions, syllabi, or work samples from a course where content of the course is in question for purposes of determining alignment with graduation requirements or the number of credits to be granted. Students will not be provided credit until requested documentation is available for review, if requested.
